

# RBOX

Multi purpose grab

The all-rounder among the Multi purpose grabs. Wood, branches, pipes, rubble, sand, gravel... this grab can handle everything. Also suitable for digging in soil and light clay. With the help of separately available, loose side plates, you can also use the grab when loading gravel, grit, flour, etc. Special, loose tile beams are available for handling tile packages, etc. These beams are extremely easy to attach to the shell with a single handle. Equipped with reversible blades as standard. A patented double-walled cylinder with piston rod protection and check valves built into the cylinder. Very easy to maintain and has a long lifespan.

**Accessoires:** suspension plate, side plates, rotator, link, rubber jaws, road plate segments

Type	Width	Capacity	Weight	Working pressure	Squeeze force
RBOX 55	570 mm	250 Liter	300 Kg	250 Bar	20 kN
RBOX 65	670 mm	300 Liter	320 Kg	250 Bar	20 kN
RBOX 80	820 mm	400 Liter	345 Kg	250 Bar	20 kN
RBOX 90	920 mm	450 Liter	360 Kg	250 Bar	20 kN
RBOX 100	1020 mm	500 Liter	380 Kg	250 Bar	20 kN
RBOX 120	1220 mm	600 Liter	415 Kg	250 Bar	20 kN
